**FOR IMMEDIATE RELEASE**

## TRANSIT ORIENTED DEVELOPMENT

WORLD SUMMIT 2018

13 - 16 MARCH 2018, SINGAPORE

### **Singapore: Leading Transit Oriented Development Summit Globally Comes to Singapore in 2018**

Equip Global's **Transit Oriented Development World Summit 2018** taking place from **13-16 March 2018** has been tailored to bring together senior-level decision makers from the Ministries of Transportation, National Development, and Infrastructure, Housing Authorities, Urban Development Authorities, Rail Operators, Investment firms and City Planners around the Asian region and globally to provide a unique insight on how to enhance TOD strategies within cities through topics focused around public-private partnership (PPP), successful business model and finance mechanisms, getting the buy in from different stakeholders, success factors in site selection and analysis, best practices of urban design in TOD, best ways to integrate land use and transport planning and many more!

In addition, many success stories of TOD projects will be highlighted throughout the main summit to allow you to **stay abreast of global trends!**

### **5 Key Benefits of Attending**

- **Identify the Areas for Improvement in your own TOD Implementation Processes** and how you can use knowledge from successful case studies to overcome the common political, financial, market, and technical challenges associated with TOD
- **Exploring Suitable Financing Mechanisms to Accommodate and Support TOD** in order to secure your project's financing and reduce associated risks and drawing on existing laws to create new partnerships towards a more sustainable ROI
- **Best ways to Integrate Land Use and Transport** - Discussing how transport infrastructure and spatial planning can be more integrated towards adaptive and sustainable transport infrastructure
- **Practical Design Guidelines for Planning and Implementing Development around Transit Stations** - Understanding the strategies to promote and implement development that is supportive of transit investment for government agencies and authorities to create an area that is vibrant, pedestrian-friendly and genuinely integrated with transit
- **Extensive Networking Experience** – Leverage on this golden opportunity to foster collaboration with government bodies, project developers, and rail and transport operators and strengthen the exchange of information and experience with TOD experts to in achieving a world class TOD!

## **5 Key Benefits of Attending**

This event is tailor-made for top decision makers, Heads, Vice Presidents, Directors, Managers, Engineers, and Project Managers and Senior Executives responsible for TOD including departments of:

- Planning
- Development
- Transit Oriented Development (TOD)
- Projects (TOD/Urban Development)
- Engineering
- Design
- Transportation (Rail/Metro)
- Real Estate
- Investment
